Smarter Banking Starts with AI

Drive growth and manage risk with Abrigo's AI-powered platform. Built on explainable AI, deep industry expertise, and data from more than 2,400 financial institution customers, it reduces manual work, improves decision-making, and helps your team focus on what matters most - driving stronger performance.

Lending & Credit Risk

Book the right loans faster with one lending platform for commercial, small business, small-dollar commercial, consumer, agriculture, construction, and nonprofit borrowers.

- Support the life of loan with configurable workflows, digital applications, credit analysis, decisioning, and more.
- Automate repetitive lending tasks to reduce manual work, errors, and inconsistencies.
- Increase lending capacity with embedded, explainable AI, including document recognition, credit narratives, and intelligent lending agents.
- Give lenders more time to build relationships and make better credit decisions.
- Streamline portfolio management and use AI-powered loan review to identify emerging risks and reduce workload.

"...from application to approval and funding in **under 24 hours**."

stellar BANK™

Customer Relationship Management (CRM) & Marketing

Strengthen relationships and drive growth with a unified solution that integrates CRM, marketing automation, analytics, profitability insights, and performance management.

- Centralize customer relationships with CRM, activity and referral tracking, pipeline visibility, and service resolution.
- Automate onboarding and cross-sell marketing interactions to drive timely, relevant engagement.
- Use advanced segmentation and financial analytics to identify and prioritize growth opportunities.
- Gain account- and portfolio-level profitability insights to focus on relationships that drive value.
- Align employee performance with strategic goals through integrated incentive and goal management tools.

"360 View Dashboards **have transformed** how we understand our customers..."

Portfolio Risk & CECL

Make better strategic decisions with integrated portfolio risk management solutions and advisory services.

- Optimize your balance sheet and liquidity risk with a dynamic asset/liability management model.
- Automate data gathering, documentation, and reporting for CECL.
- Use AI to automate allowance narratives for clearer, more consistent reporting.
- Quickly run stress tests to understand potential losses in segments like commercial real estate (CRE).
- Support complex investment accounting on a single platform.

"The [Abrigo CECL] model itself and documentation around it are the **best in the industry**..."

First Commonwealth Bank

AML/CFT & Fraud Detection

Combat financial crime with our powerful solutions, including tailored anti-money laundering (AML) capabilities, watchlist and sanctions screening, and fraud detection.

- Reduce fraud losses and increase efficiency with AI/ML-powered detection and automated processes.
- Identify and resolve suspicious activity with comprehensive case management and direct filing.
- Speed investigations with AI-driven alert scoring and automated narratives.
- Better understand, manage, and tailor alerts for your risk profile, improving communication with examiners.
- Ensure compliance and reduce risk with our AI-powered sanctions and watchlist screening solution.
