

Abrigo unveils Abrigo Community Lending software built for community financial institutions

Austin, Texas, March 8, 2023 – Abrigo, the leading technology provider of compliance, credit risk, and lending solutions for financial institutions, announced Abrigo Community Lending, new lending software built specially for banks and credit unions with up to \$500 million in assets.

Institutions of this asset size make up nearly 25% of the Kansas market, and many are looking to stay competitive with larger institutions. Abrigo Community Lending provides a robust deal summary page and role-based dashboards that give bankers easy access to data needed to process loan requests, manage pipeline, and close deals faster.

The screenshot shows the 'Loan Officer Dashboard' in the Abrigo SAGEWORKS system. It features a search bar at the top and several key sections:

- Recently Viewed Loans:** A list of five loans, including 'Online Loan #1' (Jim's Auto Shop), 'Online Loan #3' (Everton FC), 'Online Loan #6' (Everton FC), 'Online Loan #8' (Local Bakery), and 'Online Loan #5' (Lottie's LLC).
- Recently Viewed Customers:** A list of four customers: 'Jim's Auto Shop', 'Central Barber Shop', 'Local Bakery', and 'Lottie's LLC'.
- Outstanding Document Requests:** Two requests are shown: 'Central Barber Shop' (13 days outstanding, 1 of 3 documents uploaded) and 'Lottie's LLC' (13 days outstanding, 0 of 4 documents uploaded).
- My Loan Pipeline:** A table showing five loans in various stages of the pipeline, such as 'Underwriting', 'Internal Approval', and 'Prospect - Application'.
- Existing Loans Maturing In 30 Days:** One loan is listed with details like loan number, borrower, maturity date, and balance.
- Past Due Existing Loans:** One loan is listed as past due with details on the amount and frequency.

A recent survey by Abrigo found that 70% of community financial institutions value “ease of use” most when considering lending software. Leveraging twenty years of lending software experience, Abrigo Community Lending focuses on streamlined workflows and easy-to-use interfaces. Lauren Peterson of Community First Bank, said, “I am incredibly impressed by how quick and efficient the Abrigo system is. It is extremely progressive, and I believe that all banks should be switching to this.”

“Abrigo is committed to helping community financial institutions strengthen their customer relationships by providing innovative technology, and our partnerships with 2,400 institutions reflect that,” said Jay Blandford, Abrigo CEO. “We know many community financial institutions lack IT resources to implement software, which is why we created a streamlined lending platform they can get up and running quickly.”

Abrigo Community Lending’s guided workflows for multiple loan types help lenders stay on task and on time, enabling them to enhance their client experience and improve their efficiency ratios without adding staff. Abrigo Community Lending includes everything a community financial institution needs to grow without unnecessary complexity.
