Abrigo named to Chartis RiskTech100 2027

RALEIGH, N.C. – September 24, 2026 – Abrigo, a leading provider of compliance, credit risk, and lending solutions for financial institutions, today announced that it has been recognized in the annual Chartis RiskTech100 2027 report, ranking #19 overall.

The RiskTech100 is an independent study of the world's major players in risk and compliance technology. Abrigo's inclusion and elevation to the top 20 reflect its continued strength across risk management in lending, CRM, financial crime, data management, and financial operations. Abrigo was also recognized with three additional awards in Agricultural Lending, Lending Operations – Client Relationship Management, and Managed Services – Credit Risk.

“U.S. financial institutions need more than risk technology; they need a trusted partner to help turn risk management into a strategic asset,” said Jay Blandford, CEO at Abrigo. “Abrigo brings together expertise, data, and solutions to manage risk with greater confidence and make smarter lending and business decisions. This recognition reflects our commitment to being a trusted intelligence network for our customers as they navigate increasingly complex market demands.”

"Abrigo’s innovative and contextually aligned business model and steady scalability were the key drivers for its ranking in the top 20 of the RiskTech100® 2027," said Sid Dash, Chief Researcher at Chartis. "In addition, its managed services platform, which spans a range of risk and operational requirements, was responsible for its category awards in Agricultural Lending, Lending Operations – Client Relationship Management, and Managed Services – Credit Risk."

This award win comes soon after Abrigo’s recent product announcements, including Abrigo APX for lending, which brings governed agentic lending capabilities to U.S. financial institutions, and Abrigo Allowance - Intelligent Automation, which enhances the company’s market-leading CECL software.
